Hohenstein launches new academy

BÖNNIGHEIM, GERMANY (March 1, 2019) – Beginning March 4, 2019, Hohenstein will be expanding the reach of their expertise with the Hohenstein e-Academy.

The Academy offers access to valuable content via exclusive webinars and tutorials covering Hohenstein's extensive range of expertise. Online access to this regularly updated collection is available whenever and wherever needed, with further access to experts just a call or click away.

Featured subjects include basic textile knowledge, comfort and performance, fit/pattern and clothing technology, safety and sustainability, laundering and cleaning, and medicine and healthcare.

In continuation of customized training and in-person conferences, the Academy has devoted itself to the integration of digital content with classroom-based events.

Hohenstein will launch its first full program with a comprehensive course for proper linen care in industrial laundries on behalf of the German Certification Association.

For more information about Hohenstein's premier e-Academy or to explore course overviews, please visit www.hohenstein-academy.com.

###

The Academy, the heart and center of Hohenstein's expertise, is taking a step into the digital age.
